With over 40 years of combined industry knowledge in the melamine food display arena, Creative Retail Display are pushing the boundaries of design and manufacture of melamine by providing clients with leading edge food display wares.

Unlike our competitors, we control the entire manufacturing process from start to finish, with our own melamine factory in China. This allows us to have full control by producing the highest quality melamine display items on the market and reducing lead times for delivering off the shelf products and bespoke items.

We know how important it is to get your food merchandising right. At Creative we will enhance your food display to increase turnover with our wide range of unique, design led display merchandise.

We provide solutions for Coffee Shops through to Contract Caterers, from Hotels to Restaurants, with tailored and bespoke food display solutions to help you sell more food.

As well as manufacturing food display items from 100% food safe melamine, we also manufacture from materials such as poly wicker, polycarbonate, silicone, acrylic and stainless steel.

At Creative we are passionate about design and innovation in food display and know that 1st class service is paramount in creating a brand you can trust and depend upon.
Have you ever felt that proud moment of holding your very own bespoke product? With Creative you can. Whether you know exactly what you want, or have just a rough idea, our UK in-house design team can make it happen. With over 15 years’ experience designing melamine products, you can rest easy knowing that you have the best in the business creating a bespoke product just for you.

Our lead time from your initial enquiry to holding your very own product can be as little as 5 weeks, and with a minimum order as low as 120 pieces.

Our products are designed using the latest 3D software and we strive to be at the forefront of technology. We will provide you with photo-realistic product images that show exactly what your products will look like. Need to know what the capacity will be, or even the finished weight? We can do that too.

With advancements in manufacturing techniques, melamine is becoming more prevalent within the food service sector with the ability to offer customers a more realistic and attractive bowl, dish, slab or cake display.

Why Creative?

Yet again, Creative are leading the way in design of melamine products by manufacturing a totally unique collection of products to help restaurants, coffee shops, hotels and caterers minimize the amount of breakages compared to traditional alternatives.

Our melamine products are designed by our ‘in-house’ UK design team and we want everyone to know it. That’s why we have our logo proudly embossed on the bottom of every single one of our products. With the Creative logo you know that it’s not just a bowl, it is a brand you can trust. Have you ever flipped over a bowl to see who made it? We have, that’s why we decided to make all our melamine products instantly recognisable with our unique silicone feet design. Did we mention they also stop the item sliding all over the place too.

With advancements in manufacturing techniques, melamine is becoming more prevalent within the food service sector with the ability to offer customers a more realistic and attractive bowl, dish, slab or cake display.

VISUALS & APPROVAL
Our products are designed using the latest 3D software and we strive to be at the forefront of technology. We will provide you with photo-realistic product images that show exactly what your products will look like. Need to know what the capacity will be, or even the finished weight? We can do that too.

What you see is what you get with our designs. Our visuals are taken directly from the 3D models used for manufacturing, so you know exactly what you are getting once you approve the design.

MANUFACTURING & DELIVERY
Once you’re happy with the design, just sit back and leave the rest to us. We will manufacture your product using our own factory in China, QC the item and deliver it right to your door. All you have to do is open the box and enjoy your product.

Why wait, just give our experienced sales team a call today and let’s work together to make something special.
The Utah range is a unique, luxurious collection which will enhance your display and entice the customer. If you are looking to make a statement, this beautiful copper effect design is perfect.

We have used our years of experience, within the melamine manufacturing and design industry, to push the boundaries of what is possible, and the Utah collection is the result.

Our copper collection is made from 100% melamine, making it far easier to manage in everyday use than its real copper counterparts. It is available in a range of designs including bowls, platters and trays making it an eye-catching option for virtually any situation.

Whether you use our full copper products, or our copper accented items, you can be guaranteed that it will really draw the focus of your customers and create a display you can be proud of.

All our products are made from 100% melamine and are break and chip resistant. Our items comply with all food grade standards and are regularly tested to ensure that the quality and consistency of our products are of the highest level.

The Newhaven range is a lovely collection that recreates the natural, wholesome appeal of wood, but with all the added benefits of using 100% melamine.

Made from premium food-grade melamine, the Newhaven bowls also feature many useful features including reducing inserts, to hold a smaller capacity during quiet times, and lids to improve freshness.

The product range contains a broad assortment of GN sized deep dishes and display slabs, making them ideal for use in salad bars, buffet presentations, deli counters and ambient food displays.

With two natural wood finishes available across the entire range, they are an easy to manage, user friendly, alternative to using natural wood. The wood display slabs are also suitable for use with our Luxor risers, adding further opportunities to add height to your display.

Perfectly versatile and ideal for displaying all manner of fresh produce, these robust, large capacity items are sure to bring your food presentations to life.

3.5L New Haven Bowl with 1/2 Gastro Marrakesh display slab
Once again, we have created a brand new visually striking and original new collection named Agra.

The Agra collection which replicates the look and feel of authentic marble in a melamine construction, is available in an assortment of trays, bowls, plates, and slabs.

Each piece has been created to exalt the appearance of any buffet counter, table-top or front of house food display. Made from 100% pure food grade melamine the Agra collection is a robust and elegant solution for all your food display and table-top requirements.

The marble effect trays all feature a unique 20 mm depth rim ideal to use as serving trays for cooked or grilled meats in any restaurant.

The Agra slabs will all fit to perfection our unique GN assortment of Luxor metal stands, perfect for adding height to your food display counters or hotel buffets.

The collection is by far one of the most versatile and exciting new product ranges we have created, ideal for meats, pastries, cheese, antipasti displays and much more.

Why not add a touch of class and real elegance to your food displays with new Agra collection?

Our Casablanca collection is the perfect collection to create a traditional look whilst maintaining that modern convenience associated with melamine. The Casablanca collection has been produced using advanced melamine manufacturing techniques, resulting in products that are virtually indistinguishable from their ceramic counterparts. Made from 100% melamine, they are break resistant and easy to clean, making them ideal for everyday use.
Casablanca bowls

The Luxor collection offers a unique and industry leading solutions enabling you to create a virtually limitless combination of food presentation possibilities. The Luxor collection allows you to add height, focal and promotional points in your buffet or display, increasing customer interest whilst future proofing your food offering.

Our Luxor metal stands have been specifically designed to offer our customers a unique modular display solution. Available in a broad assortment of gastronorm sizes and heights.

In addition to the standard risers we have also created an angled version and a round stand that works seamlessly with or display slabs.

Our metal display stands can work seamlessly with any of our display slabs, creating endless possibilities to change the look of your counters in minutes. It’s ‘mix and match’ perfection brought to you by Creative.

Our Creative anti-slip cube risers are perfect for adding height into any buffet display or counter. With its unique anti-slip design, this is an ideal way of adding height whilst using our melamine platters, paddles, bowls or trays.

Poly wicker is a fantastic alternative to real wicker whilst offering a natural look and feel for your food display.

These premium baskets are durable, 100% food safe and can be run through a commercial dishwasher. Handmade by experts, allows us to create interesting and creative designs to display your food.

Our innovative fold flat poly wicker basket collection also reduces storage space at the end of service and are ideal for supermarkets, coffee shops and contract caterers to display a range of food, from popcorn to bread, from fruit to cheese. Our fold flat baskets come in a full range of gastro sizes, offering you a perfect solution in 4 different sizes.

Our angled tray is ideal for supermarkets and deli bars to display fruit, vegetables, bread or even used to promote promotional items.

If you are looking for a particular size basket, we can manufacture a bespoke poly wicker basket from as little as 150 pieces. From more details, then contact the Creative team today.

The Athens collection replicates all the benefits of using the classic white and blue retro enamel ware but created by us in 100% pure melamine.

Unlike traditional enamel where the blue rim will peel and chip off over time, visibly detracting from the appearance, our melamine collection is durable, long lasting and easy to maintain.

A contemporary styled gastro collection comprised of dishes and trays that are perfectly sized for your counter or buffet layout.

The York collection is available in a multitude of on-trend natural colours whilst maintaining a crisp, clean and uncluttered style. With a strong visual appeal, the York collection provides a premium clarity for the merchandising of fresh food.

Our melamine gastro deep dishes are available in a range of on-trend colours. The York deep dish also allows increased airflow within a counter layout due to the flared profile which helps to maintain the food at an optimum temperature.

All the York collection are fully dishwasher safe and have been designed to stack to reduce storage space at the end of service.

The trays and deep dishes come in full gastro sizes, so counter layouts are a breeze no matter what the size.

With over 40 years of combined industry knowledge in the melamine food display arena, Creative Retail Display are pushing the boundaries of design and manufacture of melamine by providing clients with leading edge food display wares.

Unlike our competitors, we control the entire manufacturing process from start to finish, with our own melamine factory in China. This allows us to have full control by producing the highest quality melamine display items on the market and reducing lead times for delivering off the shelf products and bespoke items.

We know how important it is to get your food merchandising right. At Creative we will enhance your food display to increase turnover with our wide range of unique, design led display merchandise.

We provide solutions for Coffee Shops through to Contract Caterers, from Hotels to Restaurants, with tailored and bespoke food display solutions to help you sell more food.

As well as manufacturing food display items from 100% food safe melamine, we also manufacture from materials such as poly wicker, polycarbonate, silicone, acrylic and stainless steel.

At Creative we are passionate about design and innovation in food display and know that 1st class service is paramount in creating a brand you can trust and depend upon.

Who are Creative?
Yet again, Creative are leading the way in design of melamine products by manufacturing a totally unique collection of premium tableware to help restaurants, coffee shops and caterers minimize the amount of breakages compared to traditional porcelain plates and bowls.

Made from 100% food grade melamine, with properties which are extremely durable, easy to maintain and most importantly completely shatter proof unlike porcelain alternative, Creative’s melamine tableware is truly advantageous to any restaurant.

With advancements in manufacturing techniques, melamine is becoming more prevalent within the restaurant sector for tableware, with the ability to offer diners a more realistic and attractive looking porcelain alternative, rather than just the usual ‘cheap looking white and thin plastic plate’.

Melamine is also a lightweight material that is easier for staff to carry, with the added benefit of being price competitive.

Our innovative range of premium colourful and vibrant melamine tableware enhances any dish, whilst offering a selection of on-trend shapes and sizes of plates and accompanying bowls.

With inspiration taken from sand, sea, stone and Japanese glazing, our collection offers a wide range of designs, allowing you to choose a style of plate or bowl which suits your restaurant, whilst enhancing your customers overall dining experience.
The ‘Shakti Stone White’ collection takes influence from the Shakti stone temples to create a Stoneware melamine tableware collection totally original and unique in appearance.

This premium Creative collection is manufactured from 100% food grade melamine, with the added benefits of being shatter proof, stain resistant, dishwasher safe and extremely durable.
The ‘Shakti Stone Grey’ collection takes influence from the Shakti stone temples to create a Stoneware melamine tableware collection totally original and unique in appearance. Our Shakti Stone Grey melamine tableware collection is perfect for casual dining restaurants, cafés, outdoor catering and pool side dining due to its hardwearing shatter resistant properties making it a leading alternative to porcelain.
The ‘Larnaca Sand Blue’ collection has been developed to mirror the effect of swirling sand across the plate surface in a striking and original design concept. Hardwearing, shatter-resistant properties make it a leading alternative to porcelain. Why not add a touch of class and elegance with our melamine tableware collection.

The “Larnaca Sand Honey” collection has been developed to mirror the effect of swirling sand as the leitmotif across the plate surface in a striking and original design concept. Hardwearing shatter resistant properties making it a leading alternative to porcelain. Why not add a touch of class and elegance with our melamine tableware collection.
The ‘Bali Water Blue’ collection has taken inspiration from the transparent crystal clear deep blue seas of Indonesia. Our Bali Water Blue melamine tableware collection is perfect for casual dining restaurants, cafés, outdoor catering and pool side dining due to its hardwearing shatter resistant properties making it a leading alternative to porcelain.
The Kyoto Raku Grey collection replicates the beautiful shimmering surface of traditional Japanese glazing methods. Our Kyoto Raku Grey melamine tableware collection is perfect for casual dining restaurants, cafés, outdoor catering and pool side dining due to its hardwearing shatter resistant properties making it a leading alternative to porcelain.
